PROFILE

Passionate and meticulous front-end developer with over 7 years of front end experience, striving for continuous self-improvement and making the internet a better (looking) place. Primary focus on converting data to graphical interface for users to view and interact with that data, through digital interaction using HTML, CSS and JavaScript.

WORK EXPERIENCE

Frontend Engineer

Valtech | Skopje, North Macedonia   2022 - Present

- Implementing user interface components for web site solutions built with Adobe Experience Manager
- Interpreting designs and translating them into pixel-perfect HTML/SCSS/JSX output to create engaging, modern web experiences.
- Ensuring high-performance and compatibility across mobile and desktop browsers using responsive design
- Developing and testing user-facing features that leverage Vanilla JS, React, TypeScript
- Performing bug fixes and code reviews
- Working with experience designers and developers through the stages of design, development, testing, release and maintenance.

Frontend Developer

IWM Network | Skopje, North Macedonia   2016 - 2022

- Creating, maintaining and improving websites
- Collaborating with back-end developers and web designers to improve usability
- Building customized features for clients
- Converting PSD files to HTML
- Developing custom WordPress Themes
- Developing custom Liferay Themes
- Developing e-commerce websites using WooCommerce
- Implementing On-Page SEO
- Optimizing sites to improve performance and efficiency

Intern

iBorn | Skopje, North Macedonia   August 2015 - September 2015

- Maintaining Web Applications
- Designing mobile based features
- Writing functional required documents and guides
